

Instructions For Setting Up GitHub For RStudio

Ngo Dang Hoang

18 April 2021

Step 1

Install Git from <https://git-scm.com/downloads> and follow the on screen instructions

Step 2

Open Tools -> Shell in RStudio and type

```
git config -global user.name "Your name here"
```

```
git config -global user.email "Your email here"
```

with your username and email registered to GitHub

Step 3

Go to your desired repository and copy the URL

Step 4

Open File -> New Project -> Version Control -> Git in Rstudio and paste the URL and press Create Project

Step 5

Open File -> New File -> R Markdown and write your code

Step 6

After you finish writing your code, save the file and it should appear on Git in RStudio

Step 7

Select the R Markdown File and press Commit (Commit message can not be empty or error message will appear)

Step 8

Press commit and push to send it to the remote repository on GitHub
